DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Adam Masia on March 1, 2007.

The Application has been amended as follows:

In the SPECIFICATION

Page 1, Paragraph 1:

- line 6: after "Serial No. 10/165,132, filed June 6, 2002, " insert --now U.S. Patent No. 6,659,864,--.
- line 8: after "Serial No. 09/689,510, filed October 12, 2000" insert --, now ABANDONED--.

In the CLAIMS

Claim 1:

- lines 7-8: after "a secondary game controlled by the processor and associated with the primary game" insert --, said secondary game including a plurality of symbols--.
- line 18: replace "any symbols" with --said symbols--.

Claim 18:

- lines 7-8: after "a secondary game controlled by the processor and associated with the primary game" insert --, said secondary game including a plurality of symbols--.
- line 23: replace "any symbols" with --said symbols--.

Claim 44:

- lines 5-6: after “a secondary game controlled by the processor and associated with the primary game” insert --, said secondary game including a plurality of symbols--.
- line 21: replace “any symbols” with --said symbols--.

Claim 57:

- lines 6-7: after “a secondary game controlled by the processor and associated with the primary game” insert --, said secondary game including a plurality of symbols--.
- line 18: replace “any symbols” with --said symbols--.

REASONS FOR ALLOWANCE

Claims 1 & 3-74 are allowed.

The following is an examiner's statement of reasons for allowance: A thorough search of prior art fails to disclose any reference or references, which taken alone or in combination teach or suggest, in combination with the other locations, “wherein said designated instruction sent from the server to the processor is independent of any symbols displayed” and necessity of the server being a remote server in communication with the gaming machine over a data network, where the server decides as to actuate a moveable member to reveal a masked secondary display regardless of displayed symbols or outcome of the game on the gaming machine.

The closest prior art is a combination of Adams (U.S. Patent No. 5,823,874), Groetchen (U.S. Patent No. 1,978,395), and an Official Notice, however, the combination fails to teach or suggest a remote server instructing the gaming machine via an instruction sent from the remote server to unveil the masked secondary display based on only the remote server and not based on any displayed symbols or game outcome. The Applicant argues (see response filed 02/13/07) that the combination does not

disclose a remote server providing instructions for the control or operation of the actuator to move the moveable member while leaving the random determination of any symbols displayed by the secondary display under the controller of the processor and also argues that there is motivation to add such features to the current combination of the prior art applied. These arguments, see pages 18-25, filed February 13, 2007, are persuasive, thus, the rejections are withdrawn and the claims are allowed.

The Examiner's amendments were necessary to clarify potential 35 U.S.C. 112 issues regarding lack of antecedent basis.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Milap Shah whose telephone number is (571) 272-1723. The examiner can normally be reached on M-F: 9:30AM-6:00PM.
